

Work and cancer

Diagnosis and Treatment

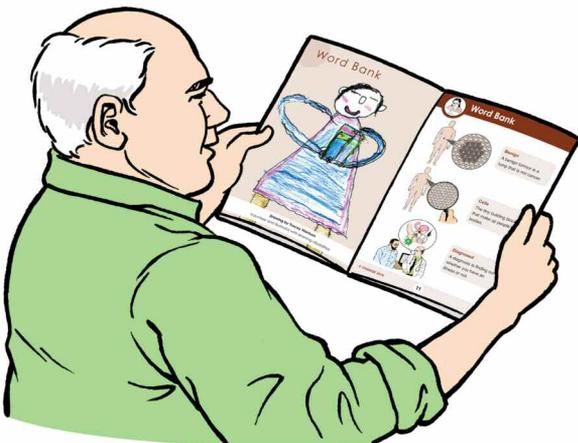

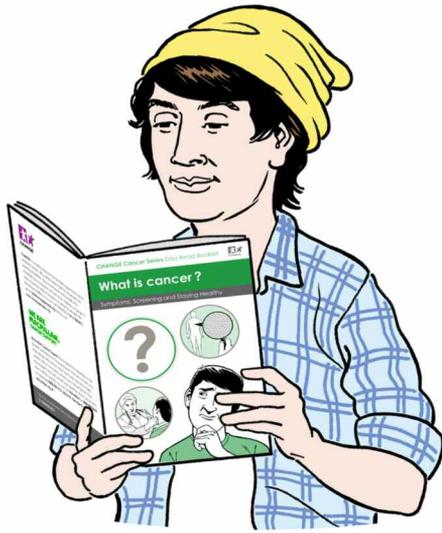

Introduction

This booklet uses easy words and pictures to help you get information about cancer.

You might want someone to help you look at the booklet so you can talk about it.

There is a Word Bank at the back of the booklet to help with hard words. Any words in **bold** you can find in the Word Bank.

This booklet can help you learn about cancer. But this is not the same as talking to your doctor. If you are worried about your health, you should talk to a doctor or nurse.

Work and cancer

Having cancer usually means that you will not be able to do the things you used to do every day.

This can be because you are feeling ill. It can be because you are tired from the treatments for cancer.

It can be because you need time to go to the hospital for your cancer care.

Work and cancer

If you are working when you get cancer you may need to stop or work less hours.

Your employer cannot sack you because you are ill.

You can get help with money if you have cancer and you cannot work. You should be able to get 'sick pay' from your employer even if you work part time.

Work and cancer

You can also get benefits.

Please see our list of useful contacts at the end of the booklet.
